

IKT LinerReport 2014: Use of CIPP liners expanding in Europe

Three-point bending test on a CIPP liner

Liner **quality** continues to be **high**. Slight **improvements** over last year. CIPP lining gaining in importance in **Europe**, accompanied by increasing quality awareness. Liner Report 2014 includes Dutch, Austrian and Swiss results.

IKT is pleased to present its LinerReport, for the **eleventh year**. This report is based on nearly **1,800 CIPP-liner** samples taken for Quality Control purposes at installation sites and tested by the **IKT Test Centre** for CIPP liners during 2014.

A market trend is becoming apparent showing the use of CIPP lining **expanding** in Europe. Although Germany remains the largest market for this method, it is gaining significantly in popularity in other western European countries. This is reflected in this LinerReport with nearly **30%** of the **site samples** tested originating from **outside Germany**, compared with less than 15% last year.
