

# Project F205: Municipal PR activities on private waste-water systems

Ministerium für Klimaschutz, Umwelt,  
Landwirtschaft, Natur- und Verbraucherschutz  
des Landes Nordrhein-Westfalen

NRW-Bildreferenzkatalog  
- Private Abwasserleitungen -

The NRW environment ministry's  
“Private waste-water sewers”  
image reference collection

In Phase 1 of this project for the Environment Ministry of the state of NRW, the tools and materials used to provide the public with information about private sewer pipes are to be refined. Various new mechanisms and tools are to be created or further developed for this purpose.

In addition, an aid to decision making about the refurbishing of site drainage systems is to be developed to assist owners and system operators through advisory services for the preparation and implementation of refurbishing projects. An image reference collection, developed during Phase I is also to be augmented, and verified.

## Project title

“Municipal PR activities on private waste-water system:  
Communication concepts for PR work and investigations into  
damage assessment and advisory refurbishing services (Project

Phase II)”
